Manager, Analytics, Real World Evidence -RWE- Design and Analytics

Titusville, New Jersey
Requisition ID: 7294170803
Janssen Scientific Affairs, LLC, is recruiting for a Manager, Analytics, RWE Design and Analytics to be based in Titusville, NJ. At the Janssen Pharmaceutical Companies of Johnson & Johnson, what matters most is helping people live full and healthy lives. We focus on treating, curing and preventing some of the most devastating and complex diseases of our time. And we pursue the most promising science, wherever it might be found. Janssen Scientific Affairs, LLC is committed to transforming patient and population health through scientific evidence across the Janssen pharmaceutical companies.

We are Janssen. Our mission drives us. Our patients inspire us. We collaborate with the world for the health of everyone in it. Thriving on a diverse company culture, celebrating the uniqueness of our employees and committed to inclusion. Proud to be an equal opportunity employer.

The Manager, Analytics, RWE Design & Analytics will be responsible for executing statistical analysis plans and conducting programming and data quality checks to generate and report real-world evidence about disease, health service utilization and the effects of medical products through the analysis of healthcare data.

- This person will support the RWE Design and Analytics Group, RWE Team Leaders, RWE Alliance Leaders and Health Economics and Outcomes Research Leaders to perform scientifically rigorous RWE studies via analysis of secondary data such as claims databases and electronic health records.
- Manager, Analytics will prepare analytical files and manage
